

**PRELIMINARY AMENDMENT**  
**DIV of USSN 09/134,575**

**IN THE CLAIMS:**

Please cancel Claims 1-5.

Please add the following new claim:

-- Claim 6. A method for eliminating tumors comprising administering, to a tumor-bearing subject, a pharmaceutically effective amount of a first antibody, having binding specificity for T cells and which is capable of eliminating T cells *in vivo*, and

thereafter administering a pharmaceutically effective amount of a second antibody having binding specificity for T cells and which is capable of eliminating T cells *in vivo*, or is capable of modulating the antigen effect of T cells or is both capable of eliminating T cells *in vivo* and capable of modulating the antigen effect of T cells,

wherein said first antibody has a different constant region in its heavy chains than said second antibody, and thus belongs to a different animal species than said second antibody. --

**IN THE ABSTRACT:**

Please delete the present Abstract of the above-identified application, and insert therefor the substitute Abstract attached hereto.

**REMARKS**

Support for new Claim 6 can be found in non-elected Claim 7 (see the Office Action (Restriction Requirement) dated June 8, 1999, in Parent Application No. 09/134,575).
